

SOILS & EROSION

Addressing the issue of on-farm erosion

When: 23 March 2022 9:30 for 10am start - 12:30pm
Where: Steinbrook Hall, Steinbrook Hall Rd,
Tenterfield, NSW

[REGISTER HERE](#)

This event will outline the importance of maintaining soil health and good farm management practices to minimise on-farm erosion.

- Reducing the risk of erosion through effective farm planning and grazing management
- Maintaining healthy soils within agricultural systems
- Reducing siltation and promoting water quality in our river systems
- Designing and executing on-ground soil conservation works

Speakers include:

- Dr Rachel Lawrence – Agroecologist
- Dr Karl Andersson – Senior Land Services Officer, Agronomy, Northern Tablelands Local Land Services
- Andrew Walsh, Senior Land Services Officer, Environment Team, Northern Tablelands Local Land Services
